## Safety Considerations When Managing Dietary Supplements in Cancer Care

**Jacob Hill, ND, MS**

*Postdoctoral Research Fellow,  
Program on Integrative Medicine*

Department of Physical  
Medicine & Rehabilitation

UNC Lineberger  
Comprehensive Cancer Center

UNC School of Medicine

University of North Carolina  
at Chapel Hill

### LECTURE DESCRIPTION

Jacob Hill's main area of focus is integrative medicine and oncology. This lecture will cover various safety considerations regarding the combination of dietary supplements (herbal medicines, nutraceuticals, vitamins, minerals, etc.) and conventional cancer treatment. The lecture will discuss herb/drug interactions, mechanism interactions, food/drug interactions, as well as health systems and health behavior considerations. This lecture is intended to assist oncology providers in discussing dietary supplements with their patients and supporting the safe management of dietary supplements in cancer care.

### LEARNING OUTCOMES

- Define herb/drug interactions and identify potential safety concerns when using herbal medicines with cancer care.
- Describe and provide an example of a mechanism of interaction between a dietary supplement and cancer treatment medication.
- Discuss health systems and health behavior considerations that increase the risk of a safety concern regarding dietary supplements in cancer care.

### ACCREDITATION

The School of Nursing at the University of North Carolina at Chapel Hill is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

To successfully complete this program and be awarded 1 ANCC contact hour you must attend at least 50 minutes of the seminar and complete the online evaluation.

The American Registry of Radiologic Technologists (ARRT) is a leading credentialing organization that recognizes qualified individuals in medical imaging, interventional procedures, and radiation therapy.

Approved by the ASRT for 1 Category A continuing education credit.

The UNC Eshelman School of Pharmacy Postgraduate/Continuing Education (PGCE) Program provides accredited professional educational activities for pharmacists and pharmacy technicians.

The Eshelman School of Pharmacy of the University of North Carolina at Chapel Hill designates this live activity for a maximum of 1.0 ACPE Credit(s).
