Helping Patients with Breast Cancer

Katharine Harrell, NP-C

Nurse Practitioner

UNC Lineberger
Comprehensive Cancer Center

UNC School of Medicine

University of North Carolina
at Chapel Hill

LECTURE DESCRIPTION

This lecture touches on various topics important in helping breast cancer patients. We'll discuss early detection, risk factors, diagnoses, treatment, and survivorship as well as breast cancer treatment modalities, including hormone inhibitors. Some patients will might want information about plastic surgery (breast reconstruction), and tips on using cryotherapy for prevention of peripheral neuropathy.

LEARNING OUTCOMES

- Identify basic breast anatomy and the components of a breast exam
- Define benign v malignant breast disorders
- Describe the basic treatment and follow-up of patients being treated for or having survived breast cancer therapies

ACCREDITATION

CNE (ANCC): The School of Nursing at the University of North Carolina at Chapel Hill is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. To successfully complete this program and be awarded 1 ANCC contact hour you must attend at least 50 minutes of the seminar and complete the online evaluation.

ASRT: The American Registry of Radiologic Technologists (ARRT) is a leading credentialing organization that recognizes qualified individuals in medical imaging, interventional procedures, and radiation therapy. Approved by the ASRT for 1 Category A continuing education credit.
