

# About the UNC Lineberger Cancer Network

## Our Mission

We work to provide scalable mechanisms for delivering oncology-related programs in education and research to healthcare practitioners, practitioners-in-training, and the public that will lead to reductions in morbidity and mortality from cancer and cancer-related illness in North Carolina. Find out more about [about the UNC Lineberger Cancer Network's mission and values](#).

## Our Work

The **UNC Lineberger Cancer Network** coordinates the programs of UNC Lineberger Comprehensive Cancer Center located across the state of North Carolina. UNC researchers and clinicians are partnering with community physicians and clinics across North Carolina to move research into practice and provide citizens with the best cancer services available.

## Our Funding

The University Cancer Research Fund is a nation-leading investment to stimulate cancer research and reduce North Carolina's leading cause of death. The funds, which support the work of the **UNC Lineberger Cancer Network**, builds research based at UNC Lineberger, the only public National Cancer Institute-designated cancer center in North Carolina.

## Our Websites

The **UNC Lineberger Cancer Network** website, for information about our Live Lectures, is at [unccn.org](http://unccn.org).

The **UNC Lineberger Cancer Network** Learning Portal, home to our Self-Paced, Online Courses, is at [learn.unccn.org](http://learn.unccn.org).

## Community College Lectures

These courses are designed for students enrolled in health sciences programs in community colleges throughout North Carolina.

The North Carolina Community College lectures provide opportunities for students to become more familiar with strategies necessary for caring for cancer patients with the goal of improving cancer care and elevating interest in and awareness of oncology-related professions.

Find out more about our **NC Community College Series Live Lectures**. Learn about our **NC Community College Series Self-Paced, Online Courses**

## Professional Telehealth Lectures

Our **Patient Centered Care** lectures equip nurses and allied health professionals with tools they need to be successful when caring for cancer patients.

Further information on our **Patient Centered Care Live Lectures**. Discover our **Patient Centered Care Self-Paced, Online Courses**.

Our **Research to Practice** lectures cover the spectrum of cancer theory, cutting-edge cancer care, and research.
