Leukemia Management in North Carolina: Updates for 2021

Matthew Foster, MD

Associate Professor of Medicine

Division of Hematology

Leukemia, Lymphoma, and Myeloma Program

UNC Lineberger Comprehensive Cancer Center

UNC School of Medicine

University of North Carolina at Chapel Hill

LECTURE DESCRIPTION

Matthew Foster, MD, from the UNC Lineberger Leukemia group will describe updates in the care of leukemias relevant in 2021

LEARNING OUTCOMES

- List at least two life-threatening toxicities of CD19-specific CAR-T cells when used to treat adults with Acute Lymphoblastic Leukemia
- Identify a group of leukemia patients who have sub-optimal antibody response to COVID-19 vaccines, even if they have not received chemotherapy.
- Describe the properties of asciminib that allow it to have activity in patients whose chronic myeloid leukemia harbors mutations that cause resistance to tyrosine kinase inhibitors.

LIVE LECTURES

UNC Lineberger Cancer Network
