**Key Concepts and Complications: Managing Cancer-Associated Thrombosis**

**Cassiopeia Frank, MMSc, PA-C**  
Physician Assistant  
Division of Hematology  
UNC Lineberger Comprehensive Cancer Center  
UNC School of Medicine  
University of North Carolina at Chapel Hill

**LECTURE DESCRIPTION**

Cassiopeia Frank, MMSc, PA-C, will review cancer-associated DVT and PE: whom to treat, drug choice, drug interactions, and treatment duration. Specific topics to include best management for line-associated venous clots and incidentally found thrombosis.

**LEARNING OUTCOMES**

- Define deep vein thrombosis (DVT) or pulmonary embolism (PE) based on location, acuity, and severity.
- Implement an appropriate intervention for treatment.
- Identify risk factors for venous thromboembolism (VTE) and recurrence and understand rationale for duration of anticoagulation.

The program was co-provided with the Greensboro Area Health Education Center.

The Advanced Practice Provider lecture series created and coordinated by Tammy Triglianos, DNP, ANP-BC, AOCNP, in partnership with the UNC Lineberger Cancer Network.
