### WEBINAR DESCRIPTION

Join Transfusion Medicine and Blood Bank Fellow, Mariama Evans, MD, for a review of transfusion reactions and their laboratory workup. Specific topics to include the most common transfusion reactions seen in cancer patients and the laboratory techniques utilized, such as Direct Antiglobulin Test (DAT) and elutions.

### LEARNING OUTCOMES

- List the most common transfusion reactions and describe their manifestations.
- Explain what steps to take if a transfusion reaction is suspected.
- Discuss common laboratory techniques used to work up transfusion reactions.

The program was co-provided with the Greensboro Area Health Education Center.

The **Advanced Practice Provider** webinar series created and coordinated by **Tammy Triglianos, DNP, ANP-BC, AOCNP**, in partnership with the **UNC Lineberger Cancer Network**.
