Mobile Health and ePROs/Symptom Assessment to Assist with Surgical Recovery

Angela Smith, MD, MS, FACS

Associate Professor, Urology

Co-director of the Multidisciplinary Genitourinary Oncology Service, N.C. Cancer Hospital

Director of Urologic Oncology, UNC Department of Urology

UNC Lineberger Comprehensive Cancer Center

UNC School of Medicine

University of North Carolina at Chapel Hill

WEBINAR DESCRIPTION

In this webinar, we will discuss the definition and use of electronic patient-reported outcomes (ePROs) and mobile health technology in optimizing postoperative cancer care.

LEARNING OUTCOMES

- Describe the use of electronic patient-reported outcomes in post-surgical cancer care.
- Implement mobile health technology to optimize outcomes following cancer surgery.
- Select appropriate patient-reported outcome measures that can guide postoperative recovery.
