Principles of Pharmacologic and Interventional Management of Cancer Pain

Dominika James, MD

Associate Professor

Department of Anesthesiology

UNC Lineberger Comprehensive Cancer Center

UNC School of Medicine

University of North Carolina at Chapel Hill

WEBINAR DESCRIPTION

Dominika James, MD, will focus on providing basic knowledge regarding pain management as pertinent to those caring for patients suffering from cancer related pain. She will discuss epidemiology and causes of cancer pain, recognize effects of pain on cancer patients, followed by pharmacological and interventional options available for cancer pain management. She will also touch on management of cancer pain in patients with history of substance use disorder and those on opioid replacement treatment.

LEARNING OUTCOMES

- Discuss epidemiology and causes of cancer pain
- Describe pharmacological options for cancer pain management
- Describe interventional procedures used in cancer pain management

The program was co-provided with UNC Digital and Lifelong Learning.

The **Advanced Practice Provider** webinar series created and coordinated by **Tammy Triglianis, DNP, ANP-BC, AOCNP**, in partnership with the **UNC Lineberger Cancer Network**.
