UNC Lineberger Cancer Network

NORTH CAROLINA COMMUNITY COLLEGE ONCOLOGY WEBINARS

Instructor Guide

Register for Webinars

Before each Community College Ocology (CCO) Live Webinar (learn.unclcn.org/cco), **UNC Lineberger Cancer Network** (**UNCLCN**) emails a registration link. Take this opportunity to sign up and receive reminder emails.

Study Guide

UNCLCN provides study guides with our webinars to help students take notes. Each study guide is tailored for such topics as cancer patient care, careers in oncology, nutrition, palliative care, and radiology.

Register to Receive Update Emails

Students can receive emails for **UNCLCN**'s CCO webinars by registering on our Learning Portal. We only contact individuals about our free webinars, and we do **not** share our mailing list with anyone, not even other UNC entities.

Learning Portal

Attendees use the Learning Portal to access our Live Webinars and Self-Paced, Online Courses (SPOCs). The video for each Live webinar is used to create a SPOC.

Instructors like you use our Live Webinars and SPOCs to supplement course instruction in the classroom or at home.

Students watch these webinars on their own to learn more about oncology and to earn certificates for their student portfolios.

Viewer Count

UNCLCN receives all of its funding from the North Carolina General Assembly. To ensure continued funding for these webinars, we share viewer numbers with the General Assembly.

Please share with us how many people watched each webinar in your classroom on this web form or at unclcn@unc.edu to guarantee future funding.

Poll Everywhere

During Live Webinars, viewers can interact with presenters through Poll Everywhere. At the start of each webinar, we help students access Poll Everywhere on phones, tablets, or laptops to answer and ask questions.

Certificates

With each Live Webinar and Self-Paced, Online Course, students earn a certificate that can go into their student portfolios.

For Live Webinar certificates, students go to learn.unclcn.org/eval. They will create an account in the Learning Portal, register for the course, and fill out an evaluation before downloading the certificate.

With the Self-Paced, Online courses, students will create an account in the Learning Portal, register for the course, watch the video, answer a quiz about the video, and fill out an evaluation before downloading the certificate.
