Caring for Patients with GI Cancers

Melanie N. Allard, DNP, APRN, FNP-BC, AGAC-NP

Family Nurse Practitioner

Division of Oncology

UNC Lineberger Comprehensive Cancer Center

UNC School of Medicine

University of North Carolina at Chapel Hill

LECTURE DESCRIPTION

Melanie N. Allard, DNP, APRN, FNP-BC, AGAC-NP, will review basic gastrointestinal tract anatomy and discuss gastrointestinal cancer(s), workup, and treatment. She will differentiate between each disease type specifically with signs/symptoms, statistics, and management, and help attendees to recognize common side effects of treatment and management of symptoms.

LEARNING OUTCOMES

- Review basic gastrointestinal tract anatomy
- Discuss gastrointestinal cancer(s), workup, and treatment
- Differentiate between each disease type specifically with signs/symptoms, statistics, and management
- Recognize common side effects of treatment and management of symptoms
