The Ketogenic Diet for Brain Tumor Patients: A Phase 1 Trial and Beyond...

Jethro L. Hu, MD

Associate Professor

Departments of Medicine, Neurology, and Neurosurgery
Cedars-Sinai Medical Center

Webinar Description

Jethro Hu, MD, will review the rationale and current evidence supporting the potential role of a ketogenic diet for brain tumor patients, focusing on a recently completed phase 1 safety and feasibility trial.

Learning Objectives

- Describe the mechanisms by which the ketogenic diet may have anticancer activity.
- Discuss the design and results of a phase 1 safety and feasibility trial of a ketogenic diet plus standard care for patients with recently diagnosed glioblastoma.
- Recognize the challenges of implementing and studying a ketogenic diet for patients and research scientists.
