**Ashwin Somasundaram, MD**

*Assistant Professor of Medicine*

Division of Oncology

UNC Lineberger Comprehensive Cancer Center

UNC School of Medicine

University of North Carolina at Chapel Hill

### LECTURE DESCRIPTION

This will discuss the landscape of novel and exciting therapies in pancreatic, gastric, liver, and colon cancers. We will focus on how the landscape is currently being investigated from a UNC perspective also.

### Exploring Cancer

Cancer is the 2nd leading cause of deaths in North Carolina. What causes Cancer? Why have we not cured Cancer yet? What are some of the myths that surround Cancer care? Why do people of color seem to develop and die from Cancer at rates much higher than the majority of the population?

The Exploring Cancer webinar series, tackles these questions and more. Learn from cancer biologists, physicians, public health experts, and other cancer specialists from NCCU, UNC-Chapel Hill, and NC A&T.
