Immune (check point) Related Adverse Events

Frances Collichio, MD

Professor of Medicine

Division of Oncology

UNC Lineberger Comprehensive Cancer Center

UNC School of Medicine

University of North Carolina at Chapel Hill

Webinar Description

Frances Collichio, MD, will review the common and uncommon side effects of immune check point inhibitors. She will also discuss the relatively new concept of delayed immune related events.

Learning Objectives

- Recognize different grades of common and rare immune related side effects
- Identify NCCN algorithms that are used to manage the side effects of these therapies
- Recognize delayed and persistent side effects from immune check point inhibitor treatment

This program co-provided with **UNC Health**
