From Bench to Bedside: Molecular Oncology's Role in Personalized Cancer Diagnosis and Treatment

Lori Ramkissoon, PhD

Clinical Assistant Professor

Pathology of Lab Medicine

UNC Lineberger Comprehensive Cancer Center

UNC School of Medicine

University of North Carolina at Chapel Hill

WEBINAR DESCRIPTION

Lori Ramkissoon, PhD will review advancements in molecular oncology and demonstrate how this integration of this testing has advanced treatment strategies and improved patient outcomes for diverse cancer types.

LEARNING OBJECTIVES

- Describe the evolution and current state of molecular oncology testing methodologies, highlighting key technological breakthroughs and their impact on precision medicine.
- Describe the integration process of molecular oncology in current cancer diagnostic workflows, including the interpretation of molecular data and its role in personalized treatment plans.
- Discuss the contributions of molecular oncology to the advancement of treatment strategies, focusing on evidence-based improvements in patient outcomes for diverse cancer types.
