## DISCLOSURE STATEMENTS

**Activity Directors:** This activity has been planned and implemented under the sole supervision of the Course Director, Stephanie Wheeler, PhD, MPH, in association with the UNC Office of Continuing Professional Development (CPD) and Emily Ray, MD, of the UNC School of Medicine. Dr. Wheeler received research support from AstraZeneca (ended June 2023) and Pfizer Medical Foundation (ended December 2023). These financial relationships have been mitigated. Dr. Emily Ray has no relevant financial relationships with ineligible companies as defined by the ACCME. CPD staff have no relevant financial relationships with ineligible companies as defined by the ACCME.

**ACCME:** The presenter has no relevant financial relationships with ineligible companies as defined by the ACCME.

**ANCC:** Except as defined above, no one with the ability to control content of this activity has a relevant financial relationship with an ineligible company.

## ACCREDITATION

**NCPD/CNE:** UNC Health is approved as a provider of nursing continuing professional development by the North Carolina Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. Criteria for successful completion requires attendance at the NCPD activity and submission of an evaluation within 7 days.

**CME:** The School of Medicine of the University of North Carolina at Chapel Hill is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The School of Medicine of the University of North Carolina at Chapel Hill designates this live internet activity for a maximum of 1.0 AMA PRA Category 1 Credit(s)<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## The Expanding World of Cellular Therapy

**Brianne Buchanan, PA-C**

*CAR-T Physician Assistant*

Division of Hematology

UNC Lineberger Comprehensive Cancer Center

UNC School of Medicine

University of North Carolina at Chapel Hill

## Webinar Description

Cellular therapy as a form of immunotherapy is a rapidly growing field for a variety of diseases. Brianne Buchanan, PA-C, will survey some of the latest research involving CAR-T and similar cellular therapies that can go from the bench to the bedside. She will also describe the wide range of cellular therapy options available to consider these for patients.

## Learning Objectives

- Recall the mechanism and use of CAR-T immunotherapy
- Describe current CAR-T therapies available in clinical trials
- Recognize patients that may be appropriate for the option of a cellular therapy clinical trial
