

# UNC LINEBERGER COMPREHENSIVE CANCER CENTER

## 46TH ANNUAL SYMPOSIUM • APRIL 24-25, 2023

### Women's Cancers

**Victoria Bae-Jump, MD, PhD**  
Professor, Gynecologic Oncology Program, UNC Lineberger Comprehensive Cancer Center  
*"Racial Disparities in Endometrial Cancer: Complexity of Genomic/ Microbiome Underpinnings"*

**Jose Conejo-Garcia, MD, PhD**  
Professor and Immunology Program Co-Leader, Moffitt Cancer Center  
*"Neglected humoral responses are required for spontaneous immune pressure against human ovarian cancer"*

**Katherine Hoadley, PhD**  
Assistant Professor, Department of Genetics, Computational Medicine Program, UNC Lineberger Comprehensive Cancer Center  
*"Molecular mechanisms of exceptional responses in women's cancers"*

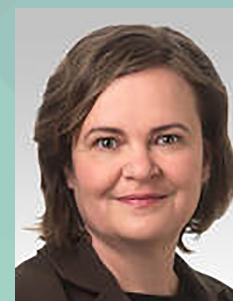

**Nicholas Navin, PhD**  
Grady Saunders Distinguished Professor, University of Texas MD Anderson Cancer Center  
*"Decoding premalignant breast cancer progression with archival single cell genomics"*

**Lisa Carey, MD**  
The L. Richardson and Marilyn Jacobs Preyer Distinguished Professor for Breast Cancer Research, UNC Lineberger Comprehensive Cancer Center  
*"Breast Cancer: Precision Medicine from the Beginning to Today"*

**Melissa Davis, PhD**  
Scientific Director, International Center for the Study of Breast Cancer Subtypes, Weill-Cornell School of Medicine  
*"Uncovering Unique TNBC Pathways Through a Lens of Global Diversity"*

**Daniela Matei, MD**  
Chief of Reproductive Science in Medicine, Diana, Princess of Wales Professor of Cancer Research, Northwestern University School of Medicine  
*"Metabolic Dependencies in Ovarian Cancer"*

**Charles Perou, PhD**  
The May Goldman Shaw Distinguished Professor of Molecular Oncology, UNC Lineberger Comprehensive Cancer Center  
*"Quantitative Medicine for Breast Cancer Patients"*

**Diego Castrillon, MD, PhD**  
Vernie A. Stembridge, M.D., Distinguished Chair in Pathology, University of Texas – Southwestern Medical Center  
*"Translational Studies of Endometrial Cancer and Precancer"*

**Hector Franco, PhD**  
Assistant Professor, Department of Genetics, UNC Lineberger Comprehensive Cancer Center  
*"A multi-omic dissection of gene expression re-wiring in women's cancers"*

**Sandra McAllister, PhD**  
Associate Professor, Brigham and Women's Hospital, Harvard Medical School  
*"Impact of Immune Age on Breast Cancer Progression and Therapeutic Response"*

**Jeffrey Rosen, PhD**  
Distinguished Service Professor of Molecular and Cellular Biology, Baylor College of Medicine  
*"Leveraging Preclinical Models for Translational Breast Cancer Research"*

**Melissa Troester, PhD**  
Professor, UNC Gillings School of Public Health, UNC Lineberger Comprehensive Cancer Center  
*"From cells to society – an integrative approach to breast cancer equity"*
