

Deadline: February 2, 2024, 5:00 pm EST

Cancer Control Education Program Predoctoral Fellowship 2024–2025

The Cancer Control Education Program is an NCI-funded training program (T32) in cancer prevention and control. Information about the program is available at:

www.unclineberger.org/cancer-control-education-program

Program activities and support are for a full year with potential to renew for a second year, and include travel funds, career development, and specialized mentoring. A list of eligible mentors is provided on the website.

ELIGIBILITY

CCEP recruits almost exclusively among current students who have identified a cancer related dissertation topic. Please apply via our website: <https://unclineberger.org/cancer-control-education-program/>

- Students will submit current curriculum vitae, personal statement, and a cover letter.
- Applicants must also have three letters of recommendation for full consideration, including one letter from an eligible mentor.
- Application and letters should be submitted via the application button on the Lineberger CCEP website.

REVIEW PROCESS

Applications for CCEP are reviewed by a multidisciplinary panel, including the PIs of the grant, plus a multidisciplinary internal advisory board. Funding decisions will be made in March of 2024.

CONTACT

For questions about program eligibility and requirements please contact Laura Dunn, laura_dunn@med.unc.edu.
