

CURRENT CLINICAL TRIALS – PROCLAIM Study

PROMoting CLinical Trial EngageMent for Pancreatic Cancer App Study (PROCLAIM Study)

Clinical Trial Website: [NCT06252545](https://clinicaltrials.gov/ct2/show/study/NCT06252545)

Current Status: Recruiting

Description: This two-part, randomized trial seeks to identify and address barriers to enrollment of Black patients in pancreatic cancer clinical trials by conducting interviews and creating a culturally-informed mobile health application to promote participation.

Key Inclusion:

- Patients at least 18 years old
- Patients must identify as Black
- Have newly diagnosed or progressive pancreatic cancer
- Have access to a mobile device

Key Exclusion:

- Inability to read and speak English
- Dementia altered mental status or a psychiatric condition prohibiting informed consent
- Active participation in a therapeutic clinical trial
